Build the document sequence

Identify the next action, who owns it, and what must happen first.
For validity-sensitive records, confirm the timing before placing an order.

Slow prerequisite: task / owner / dependency / review date

Time-sensitive record: issuer / issue date / validity rule to confirm / next action

Other applicant or dependent: separate tasks and sequencing questions

Travel / lawful-stay / future residence questions to have checked

☐ I have distinguished estimates from confirmed dates.

☐ I will recheck current requirements before filing.
