

What each adult can document

Fill in on screen or print. Keep your copy private. Use YYYY-MM-DD for dates.

1 The two adults

Adult A name (first name only is fine)

Adult B name

2 Target move date and the date you would file

Planned arrival in Ecuador

Earliest realistic filing date

Buffer allowed (weeks)

The arrival date drives the continuity calculation. If a visa is approved months before you land, the time between approval and arrival is time outside Ecuador.

3 Route evidence for each adult

Tick every item the adult could actually document today, then note the gap.

Adult A

- ☐ Recognised degree / technical credential
- ☐ Credential already registered (SENESCYT)
- ☐ Qualifying investment asset
- ☐ Monthly income evidence
- ☐ Pension or passive income record
- ☐ Remote job for a foreign employer

Adult B

- ☐ Recognised degree / technical credential
- ☐ Credential already registered (SENESCYT)
- ☐ Qualifying investment asset
- ☐ Monthly income evidence
- ☐ Pension or passive income record
- ☐ Remote job for a foreign employer

Which adult's evidence is strongest, and on what basis?

Anything an adult cannot document today?

Remember: an apostille proves authenticity. It does not make a credential recognised, and it does not decide a visa category. Confirm the live checklist for the route before ordering documents.

Compare the two structures, then plan the documents

4 Compare the structures on your own facts

One primary route with a dependent, versus two independent routes.

Structure A - one primary, one dependent

Why this structure fits, in one line

Second adult can file only after the principal is approved?

Where does the continuity clock land relative to arrival?

Structure B - two independent routes

Why this structure fits, in one line

Can both files be prepared in parallel?

Where does the continuity clock land relative to arrival?

Which cost is easier for you to carry - an extra applicant file, or a later second approval?

5 The document clock

Every applicant aged 18 or over needs their own criminal-record certificate.

Document	Owner	Issued (date)	Apostille route	Expires / recheck

6 Questions to settle before paying for anything

- ☐ Which rule applies to each adult's route and current status?
- ☐ What event allows the second adult's application to begin?
- ☐ What is the issue-date clock on each criminal-record certificate?
- ☐ What work is included in the fee, and which third-party costs are separate?
